

Long Life, Dependability and Colour

Surelite's own brand of Halogen Parabolic (Par) lamps are among the best in the industry. These lamps are the perfect choice for a wide variety of tasks and for accent lighting. Surelite Par Halogens are a very high quality light source. The bright white light offers near-perfect colour rendition, bringing colours to life. Surelite lamps have high lumen maintenance, retaining their excellent light quality throughout their long service life. Their advance optics feature parabolic reflectors and lenses which provide a smooth beam performance. Surelite has the broadest selection of halogen Par lamps offered in 5 sizes, 6 wattages & 9 beam angles. There is virtually a Surelite Lamp for any application.
